Import Promotion Desk (IPD)

Cost- and risk-optimised sourcing from new markets

IPD presents 34 selected companies from Colombia, Ecuador, Egypt, Ethiopia, Ghana, Indonesia, Jamaica, Sri Lanka, Tunisia, Ukraine and Uzbekistan – offering their diverse and high-quality range of natural ingredients.

IPD is the German initiative for import promotion that connects European importers with these carefully evaluated exporters. Our goal is the sustainable and well-structured import promotion of special products from selected developing countries and emerging markets – under compliance with high quality, social and environmental standards.

We introduce exporters from our partner countries to the EU market and assist them in setting up trading relations. For European importers we open up new supply markets in the partner countries and support them in the complex purchasing process.

Reduce your initiation, negotiation and control costs with IPD. We have the contacts, information and communication channels to your new suppliers. Our services for you are neutral and **free of charge**.

All IPD companies were carefully selected and then readied by IPD to commence export to the European market. On the following pages you will find detailed information about our reliable exporters.

We establish direct contact to these new suppliers and organise b2b meetings at the trade fair. **Get in touch with us!**

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. We are funded by the Federal Ministry for Economic Cooperation and Development (BMZ).

IPD partners

IPD works with a network of international organisations in Europe and its partner countries.

Thus we efficiently pool information and know-how. Our partnerships enable us to tailor our services exactly to the needs of European importers.

Colfrost

Hall 4 P190

Colfrost is a Colombian industrial frozen fruit processing (IQF) and retailer company. The company is specialized in frozen products that preserve the original characteristics of the fruit such as taste, smell and texture, adding value to the customers with a product that is ready to consume and available throughout the whole year.

The main product is frozen Hass avocado in cubes, slices and vacuum-packed halves, with a shelf life of up to 2 years, meeting the needs of the international market and being ideal for retail and food service operators. Colfrost has a 100% export approach with experience in exporting 800 tons to the Japanese market.

Colfrost's privileged central location allows to get supply from different regions of the country all year round. The processing plant is located in a Free Trade Zone and a few hours from the main Colombian port, which makes it ideal for exporting. The company's capacity is 2,000 tons per year (2022).

COLOMBIA

Frutihelen

Frutihelen is a Colombian company producing frozen and powdered fruit pulp from a wide variety of fruits. Some of the processed fruits come from the company's own crops, which generates income for farmers and ensures high fruit quality which can be traced from its origin.

Frutihelen is deeply committed to socially and environmentally responsible practices in Colombia, which they consider essential for the sustainability and improvement of the company. In this regard, Frutihelen works mostly with single mothers, not only improving the quality of life of their employees but also their families. They compost their organic waste, use renewable energy and invest only in environmentally friendly, high-tech machinery and equipment for refrigeration and freezing.

COLOMBIA

Pacifico Snacks

Pacifico Snacks is a woman-owned and operated private-label snack manufacturer based in Colombia. The company formulates, packages and exports all-natural tropical chips, both fried and crunchy dried, to specialty food retailers and wholesalers looking to sell their own line of snack products, driving growth and value to their brand.

Supporting US snacking brands since 2011, Pacifico Snacks aims to listen carefully to what their customers want – then respond by creating exciting snack products to meet changing tastes and expectations. Pacifico Snacks is passionate about their all-natural, non-gmo and gluten free products and proud of embedding social and environmental factors across their operations and decision-making.

PRODUCTS & QUANTITIES PER YEAR

COLOMBIA

San Gregorio

Since 2003, San Gregorio has offered innovative products, based on tropical fruits, that are tailor-made to meet the customers' needs. Their products are easy to use and they guarantee permanent stocks. Their main customers are restaurants, the industry and retail.

The company's staff are dedicated people who are willing to learn. Around 40% of the staff at their processing plant have some kind of disability. San Gregorio prioritizes clean agriculture principles in their crops management. This contributes to lessening the environmental impact of their activities. They forge long-term relationships with their suppliers, based on principles of trust, sustainability and fair purchase prices.

PRODUCTS & QUANTITIES PER YEAR

- + Avocado products (High pressure processing [HPP]) / 80t
- + Fruit pulps (e.g. Mango, feijoa, lulo, passion fruit, soursop, golden berry) / 60t
- + Frozen fruit pulp blends / 20t
- + Coconut lemonade / 45t
- + Cold press and HPP juices / 20t

CERTIFICATIONS

COLOMBIA

Flavors & Scents

Established in 2017, Industria Alimenticia Flavors & Scents is an Ecuadorian company focused on the production of freeze-dried food. The company is located in Quito, Ecuador, where they receive raw materials from farmers across the country and process their products with top-of-the-line technology. The standards and certifications allow them to guarantee their clients the best possible quality in freeze-dried products.

The local and international strategy is to provide the customers with the functional benefits superfoods have to offer, thus, targeting a clientele that values its health and well-being.

PRODUCTS & QUANTITIES PER YEAR

- + Freeze-dried papayas
- + Freeze-dried physalis / golden berry
- + Freeze-dried pineapples
- + Freeze-dried mangoes
- + Installed capacity à 18t / year

CERTIFICATIONS

- + ISO 22000 (in process)
- + ORGANIC EU (in process)

ECUADOR

Healthy Food

Hall 4 P146

Healthy Food is a manufacturer of fruit-based products such as pulps, sauces and jams, produced under the highest quality standards. Given Ecuador's geographic location, over 19 fruits are offered all year long. Healthy Food provides solutions for the most demanding customers.

Stakeholders in the food industry are increasingly exposed to more diverse knowledgeable consumers and greater regulatory controls. Healthy Food solves these needs by getting involved throughout the whole production cycle and guaranteeing food safety, traceability, social and environmental sustainability, and R+D at competitive prices.

PRODUCTS & QUANTITIES PER YEAR

- + Pineapples
- + Passion fruits
- + Soursops
- + Berries

In total: 1,800t

CERTIFICATIONS

- + FSSC 22000

ECUADOR

Inalpev

Hall 4 P146

Inalpev feels proudly Ecuadorian. The company is located in the northwestern part of South America, crossed from north to south by a volcanic section of the Andes mountain range, with the highest concentration of rivers per square kilometer in the world and the densest biodiversity in the planet.

Inalpev's philosophy is based on working with social responsibility, creating sources of direct and indirect employment and encouraging agricultural practices in the region where they are located and in the country itself. They seek to maintain a fair trade philosophy.

The company cultivates and harvests fruits for producing fruit pulps.

Uchu Spice – Proaji

proaji ECUADOR

pizcafoods PERU

Based out of South America, the cradle of hot peppers, Proaji has over 35 years of experience producing and processing a wide array of chili pepper varieties. The company works with hundreds of independent smallholder farmers across Ecuador and Peru to export high quality products from heirloom hot peppers. With modern processing facilities and strict food safety laws, their customers can ensure they are getting the best product possible.

With strict supply chain management from seed to processing facility output, Proaji's products are fully traceable. The company processes various peppers into dried whole, flaked, powdered, smoked, brined, mashed, and pureed forms for spicy food creators around the world. Although Proaji believes their existing products' quality and diversity is unparalleled, its innovative roots and spirit are still active. If one of Proaji's existing products is not exactly what its customers are looking for they are invited to reach out to them anyway – Proaji loves challenges that trigger the imagination and create something new, built just for its customers.

PRODUCTS & QUANTITIES PER YEAR

Ethmar Green

Standing on the solid grounds of quality and integrity, Ethmar Green continues to uphold its strategic position in an extremely competitive environment. Tracing its impressive journey back to 2014, Ethmar Green began as a start-up agency in the remote desert of the Siwa Oasis. In addition to its endeared olive oil production line, the company is now a major player in today's premium date market, offering a wide variety of date-based merchandise.

However, this magnificent journey does not end here. With substantial investments in innovative technologies, vigorous advertisement and sales campaigns and the continuous opening of increasingly prosperous distribution channels, Ethmar Green aspires to grow its business even bigger, crossing more borders into higher horizons.

Novaroma

NOVAROMA
— FOOD INGREDIENTS & MORE —

Novaroma is a food processing company with its production site set in Beni Suef, Egypt. They provide an alternative to the few other origins for similar products and enjoy an amicable relationship with European importers with competitive pricing and high-quality material.

Novaroma is a vertically integrated organization that handles crop cultivation and harvesting and operates a fully equipped dehydration and processing facility in an effort to keep all work done in-house. The finished product is packed in retail foil bags, paper bags, cartons, super sacks, etc. Egypt also benefits from its ideal geographic location for quick and cost-effective transportation by sea to all EU ports.

The company is constantly pursuing higher standards, reflected by 3rd party audits, facility upgrades, upkeeps, and upgrades to machinery. The next steps for 2022 include expanding the vegetable program and initiating organic production and capsicum oleoresin extraction.

PRODUCTS & QUANTITIES PER YEAR

- + Dehydrated vegetables (Jalapeno, chili, carrot, spinach, green onion, paprika, etc.) / 300t
- + Dehydrated herbs (Basil, mint, curly parsley, thyme, dill leaf, etc.) / 1,000t

Pure and Just

Pure and Just is a climate-smart agro-processing business transforming the naturally flavorful tropical fruits of Ghana into world-class, naturally-dried fruit products. They source pineapple, pawpaw (papaya), mango, and banana directly from farmers, which are later processed at their facility.

Established in 2018, they currently have a staff of 18 people (excl. executive management). They are in the process of setting up a new facility located 1.5 hours from the capital, Accra. This new facility (operational Q2 2023) will have a staff of 40 people and a monthly capacity of up to 20 tons of dried fruits. They have exported consignments to Japan, the UAE, and the US.

PRODUCTS & QUANTITIES PER YEAR

- + Dried bananas
- + Dried mangoes
- + Dried pawpaws
- + Dried pineapples

Currently: total of 18t

Planned (Q2 2023): 240t

Tazart

Founded in 2015 in Tunisia, Tazart is an agri-food company specialized in dried figs from both the mountainous North and the drier South of Tunisia. The name Tazart comes from the Amazigh culture, the original culture of North Africa, and it means "dried fig".

Through direct relationships with farmers, Tazart is able to offer quality products by supporting farmers from start to finish - from planting and maintenance of the trees until the harvest of the fruits. Tazart has won the gold medal for the best dates and dried figs in 2 editions of the Tunisian local products competition. Special products Tazart offers are its "Zidi" as well as the "Bayoudhi" figs, which naturally dry directly on the trees and are then subsequently harvested.

Tazart is built on 3 axes: social and ecological responsibility, the value of natural products, the value of good food ingredients.

PRODUCTS & QUANTITIES PER YEAR

- + Natural dates Deglet Nour / 350t
- + Natural dried figs in wooden boxes (Bayoudhi) / 20t
- + Dried figs "Toujane" (Bayoudhi) / 35t
- + Dried figs "Zidi" (Zidi) / 6t
- + Dried figs "Djebba" (Bouhouli) / 15t
- + Dates' syrup / 50t
- + Dates' sugar / 80t
- + Dates' stones coffee / 120t
- + Dates' paste / 500t

CERTIFICATIONS

- + FSC 22000 (in process)
- + HACCP (in process)
- + ORGANIC EU (in process; for dates)

Tunisian Dried Foods

Tunisian Dried Foods (TDF) is the first company in Tunisia to provide dried fruits and vegetables on an industrial scale. It relies mostly on its own crops grown in the Mediterranean climate of Tunisia. Fruits and vegetables are harvested at optimum ripeness and immediately processed at TDF's 1,000 m² factory equipped with modern facilities compliant with international standards. Fresh products are processed using pure physical dehydration. No additives or preservatives are used at any stage of production.

TDF employs 50 people (95 % are women) with a confirmed expertise in food safety and quality. All products' shelf-life are extended with Modified Atmosphere Packaging (MAP). Packages from 100 g to 8 kg are available.

PRODUCTS & QUANTITIES PER YEAR CERTIFICATIONS

UKRAINE

Ukrainian Walnut

The daughter company of UW Holding AG, Ukrainian Walnut, is specialized in the production and processing of walnuts. The first orchard was planted in 2016. The company has planted until now around 500,000 trees of the Chandler variety on the border of Ukraine and Moldova on an area of 1200 hectares.

They care about the best results at every stage from growing to processing the nuts, which is why they get a world class product. Uncompromising quality is Ukrainian Walnut's goal and, at the same time, a serious challenge. Ukrainian soil is famous for its fertility far beyond its borders. Therefore, Ukrainian Walnut uses advanced cultivation practices and works with the best experts. Their prime location allows them to deliver to Europe in a very short time.
