Connect with reliable new tourism partners

According to ABTA's annual report, more than half of respondents said that the sustainability of their holiday provider is important to them when planning a trip. The **Import Promotion Desk (IPD)**, matches European tour operators with evaluated partner companies from **Ecuador, Nepal, Tunisia and Uzbekistan** who care about sustainable tourism.

The IPD will bring companies to wtm London 2023 and the subsequent roadshow that offer added value to any existing product portfolio in the destination with their unique focus. Also represented are DMCs (Destination Management Companies), which can offer a wide range of tours – with these companies focusing on sustainability and thus enabling access to a new destination with a reliable and sustainable partner.

Meet them in person at this year's World Travel Market in London in the section "Experiences" at stand **N10-606**. You can also find some IPD partner companies from Tunisia at the **Tunisia Country Pavillion (S8-200)**.

Each partner company has been carefully screened by the IPD team and prepared for the requirements of the EU travel market. On the following pages you will find detailed information about these recommended tourism businesses.

For the first time, the IPD is also offering a **roadshow in Manchester (09.11.23) and Newcastle (10.11.23)** as a follow-up to wtm London. Under the motto "High Tea Around the World", interested tour operators can not only get in touch with interesting suppliers from Ecuador, Nepal, Tunisia, and Uzbekistan, but also taste tea specialities from the partner countries.

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. We are funded by the Federal Ministry for Economic Cooperation and Development (BMZ). In line with our development policy objective, we aim to integrate small and medium-sized enterprises from developing countries into international supply chains, promote innovation and higher value creation in order to contribute towards sustainable economic development in partner countries.
