Import Promotion Desk (IPD)

Your partner for sustainable business contacts

For more than 10 years, we have been supporting European importers in their search for fresh produce suppliers in selected partner countries and opening them up new procurement sources. Once again we have expanded our commitment and included Brazil in our matchmaking programme.

Now IPD can connect you with reliable producers of fresh produce in 10 partner countries – Egypt, Colombia, Ecuador, Côte d'Ivoire, Ghana, Morocco, Peru and Ukraine – now also in Brazil.

During intensive fact-finding missions, we identified promising companies who show Brazil's great potential as supplier of fresh fruit & vegetables. We are particularly happy to present the first IPD partner company from Brazil at Fruit Logistica 2024.

Like all companies in the IPD programme, the company has gone through a complex screening process. We carefully prepare all our companies for the European market and guarantee that they meet all the requirements of the most important European standards for sustainable production and high food safety.

In addition, we give advice to producers in our partner countries on certifications such as GLOBALG.A.P., EU organic and other relevant standards (Fairtrade, Rainforest Alliance, etc.).

Our contact brokering is neutral and free of charge!

At FRUIT LOGISTICA 2024, we will introduce you to 33 evaluated suppliers from Brazil, Colombia, Côte d'Ivoire, Ghana, Ecuador, Egypt, Kenya, Morocco, Peru, and Ukraine.

Check out the high-quality fresh produce offer of our partners for yourself and visit us at **FRUIT LOGISTICA 2024** in **Hall 25 C03**.

On the following pages you can find detailed information about our exporters. We establish direct contact to these new suppliers or organise b2b meetings online.

Get in touch with us!

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. IPD is funded by the Federal Ministry for Economic Cooperation and Development (BMZ) and part of the "Partners in Transformation – Business & Development Network", into which the BMZ programmes for economic actors are organised.

IPD partners

IPD works with a network of international organisations in Europe and its partner countries.

Thus we efficiently pool information and know-how. This enables us to link existing import and export promotion measures and carry out their strategic further development. Our partnerships always make it possible for us to match all services of IPD to the needs of importers and exporters exactly and then carry out our services optimally at any place.

Duvale Fruits

Duvale Fruits, originating from a family farm in the São Francisco Valley, became a company in 2019 with a mission oriented towards quality. Specializing in cultivating and growing a variety of high-quality mangoes, the company carries out sustainable practices and implements food safety measures. Having successfully practiced indirect exports to Europe and the US since its foundation, the company now aims for direct business relationships with global customers, assuring stringent international standards.

This transformation symbolizes dedication to excellence in the entire supply chain, product- and service-delivery. Modest in size, Duvale Fruits differentiates itself in quality and reliability, cultivating more than mangoes: trust and satisfaction in every business interaction.

Products & quantities per year

Colombian Fruit Group

 Product available in organic quality

Colombia

Colombian Fruit Group is an organic enterprise that has grown and exports organic since 2016. CFG has a deep belief in the importance of fair and ethical agricultural practices and protects the harmony of the ecosystems where the fruit is cultivated. Furthermore, the company empowers all fruit growers to obtain international certifications. With their assistance and guidance, they assure a wide variety of excellent organic certified fruit. Their objectives are 1^o, expand grower families' fruit produce capacity by encouraging them into a better life quality by providing technology & tools to aid them in doing what they enjoy and know in a sustainable way & 2^o, let costumers enjoy all year long new and more exotic fruits by constantly increasing their variety and production with international certifications. They like to work with planet recovery-conscious companies.

De Los Angeles Produce

Colombia

De Los Angeles Produce was established in 2015 in the city of Bucaramanga with the goal to export high quality fresh produce from Colombia to the world. They are part of a grower's association for limes in the region of Santander with control over the whole process from production to packing and shipping.

Through GLOBALG.A.P. and GRASP certification, De Los Angeles Produce assures good agricultural, environmental and social practices and guarantees the highest quality and 100% traceability of the products. At the moment, the company has 200 hectares of lime in full production. In addition to its own production, De Los Angeles Produce has formed longstanding strategic trusted partnerships with GLOBALG.A.P. certified avocado producers and packers in the regions of Antioquia and Tolima.

Etablissement-Bakayoko

Hall 26 | D-80

Etablissement-Bakayoko is a young and dynamic company which focusses on the production, processing and sales of coconut products. Adherence to international quality standards are key to Ets.-Bakayoko's success. In recent years, the company has been able to widen its client base in Europe and constantly improve its production.

For that purpose, the company collaborates with the leading national agronomic research institute, CNRA, to further improve the conditions and properties of Ivorian coconuts on its own research plot.

If you partner with Ets.-Bakayoko, you partner with a reliable source for coconuts.

Savianas

Hall 26 | D-80

Savianas is a pineapple producer located in Côte d'Ivoire's pineapple hub Bonoua, dedicated to cultivating premium pineapples in the southeastern region of the country. Established with a commitment to excellence, Savianas is deeply rooted in the lush agricultural landscapes of Côte d'Ivoire, where the tropical climate and fertile soil contribute to the exceptional quality of their produce.

The pineapples are nurtured under the care of skilled agricultural experts, ensuring that each fruit meets the highest standards of quality and taste.

Savianas' pineapple farm in the southeastern region benefits from the region's unique climate, resulting in pineapples that boast a perfect balance of sweetness and juiciness. The company is dedicated to meeting the demands of local and international markets, providing a reliable source of top-tier pineapples.

Falusán

🌱 Product available in organic quality

Ecuador

Falusán is an agro-industrial family company founded in 2018 by two women who embarked on an agricultural journey to exploit the potential of their country and generate impact and visibility for women in agriculture in the province of El Oro. The company is a pioneer in that province and the first in the country to specialize in turmeric production with a high level of curcumin as a bioactive component.

Falusán is dedicated to boosting its internationalization through a sustainable management model, adding value, and managing initiatives that promote environmental preservation, gender equity, innovation, and circular economy.

Falusán holds the distinction of being the first company specialized in turmeric production in the country to offset its emissions, thereby becoming a “Carbon Neutral” company. Additionally, it has obtained the highest number of certifications in recognition of its commitment to excellence.

Nova Alimentos

🌱 Product available in organic quality

Ecuador

Nestled in Ecuador's Highlands, Nova leverages its geographical advantage, cultivating Broccoli throughout the year. It is the only origin capable of planting, growing, and harvesting every week of the year. Positioned at 2,700 to 3,100 meters, the fields benefit from direct sunlight, yielding Broccoli with distinctive advantages: intense color, a slightly sweeter taste, and a crispier texture.

The high altitude, combined with a meticulous agricultural protocol, constant monitoring, and a full-time trained staff, ensures consistent high-quality produce. Full traceability tracks the journey from the fields to shipment. For more than 15 years, Nova Alimentos has been exporting premium broccoli to many markets around the world.

Bcorp

Bcorp Trading Company is a family-owned business that specialises in the sustainable production and export of citrus. The company was launched in 2022 by the Elbadawy siblings to continue and develop the farm started by their father in 1985. Bcorp upholds a commitment to high-quality produce, international standards, and safe working conditions for their employees. Prioritizing worker well-being, the company fosters a positive working environment.

With a vision to address the global food security crisis, Bcorp aims to position itself as a comprehensive solution by optimizing the production and delivery of sustainable agricultural commodities from Egyptian farms to global markets.

Farm Pick Fruit Export

Egypt

Since 1995, Farm Pick has nurtured superior fresh produce with a mission to produce premium quality fruits for the export market. What began as a modest farm near Sadat city, focusing on exceptional table grapes, has blossomed into a vast enterprise spanning 400 hectares of fertile land.

Diversifying their products to include citrus, pomegranates, and mangoes, Farm Pick sustains its unwavering commitment to cultivating only the finest fruits across all varieties it grows.

With a dedication to delivering excellence, the company strategically manages the entire supply chain, ensuring a seamless journey from their farm to the international markets. Committed to upholding the highest standards of safety and hygiene, Farm Pick strives for maximum compliance across all its processes, assuring constant top-tier produce and unparalleled customer service.

Gezira United

Gezira United

As the 4th generation farming on the same land, the Badawy family takes a great pride in their agricultural heritage. In 2016, they launched Gezira United Company to expand their legacy and export their products worldwide.

Gezira United is a major producer of premium quality fresh fruits and vegetables in Egypt, with 120 acres cultivated using advanced farming techniques, overseen by a dedicated team of experts. Their farm and packing station are conveniently located minutes away from the Damietta port.

In terms of sustainability, they apply drip irrigation, use fully recyclable packaging material, with a storing & packing facility which is entirely solar powered and includes an automated sizing line.

Gezira United stands out by owning and controlling the whole process from seeding to shipping.

Sobek was established as a subsidiary to the renowned Badrawy Farms which is a family-owned business that has operated successfully within the agricultural industry since the 1920s.

Today, the Badrawy family aims at further expanding their exports to Europe with their premium products. Sobek values its role in the community and provides its workers with fair and decent working conditions. The farm has solar panels that provide up to 50% of its energy needs.

Sobek's purpose is to shorten the supply chain thus resulting in a more efficient business cycle, providing its customers with premium products with great value. With end-to-end control over the supply chain, Sobek ensures the highest quality for its customers worldwide.

Kwafre Farms

Ghana

Kwafre Farms is a privately owned farm in Ghana, West Africa with focus on the production of high-quality, tasty, sun-ripe mango fruits. They have highly qualified agronomists and other skilled staff focused on producing fruits safely and responsibly. Their 400 acres mango farm is GLOBALG.A.P.-certified and they produce 700 tons annually with Keit and Kent as main varieties. Harvesting period is from May– August each year with fruit sizes between “count 6 to count 10” in a pack with average weight being 400-700g.

The company currently sells some fruits to 2 European-owned processors (Blue Skies and HPW) based in Ghana who sell the processed fruits to Europe. However, Kwafre plans exporting fresh fruits directly to EU. Kwafre Farms performs measures to support the environment and biodiversity, e.g. by adding and managing teak and acacia tree plantations on the farm site.

Angaza Foods

🌱 Product available in organic quality

Kenya

Angaza Foods specializes in offering rain-fed organic avocados cultivated in the slopes of Mt. Kenya. Angaza Foods manages 42 hectares of organic avocado production, adhering to the GAP standards.

Harvesting is done when fruits are mature and with dry matter of 24.

Professional sorting and packing takes place at a facility in Thika, guaranteeing quality and uniformity in sizing. Avocado fruits that do not meet the quality standards are further processed into avocado oil, ensuring zero waste.

Angaza Foods provides avocados in sizes ranging from 14 to 22, packaged in 4 kg and 10 kg boxes. The company offers fruit production starting from March, a feature that distinguishes them from other companies.

Fresh Approach

Fresh Approach has more than 20 years of experience growing and exporting quality fresh fruit and vegetables across Europe.

The company grows its produce in three main farms and it also works with small scale farmers, majority of them are women and young people to help them increase their livelihood options and earnings. The growers are aware of their environmental responsibility and production safety aspects which ultimately offers them higher yields. Its main crops are green beans: extra fine and fine peas in pod.

Fresh Approach also grows other crops according to the customer's demand. They have full control of the value chain from seed to the final product, ensuring high quality to its partners. By working with Fresh Approach you are not only guaranteed quality produce, but you can also be confident that you are receiving a safe product, working with a reliable partner and supporting the livelihoods of over 2,000 rural households.

Agrícola Nuestra Tierra (Cultivemos) is a team of experts in the agroexport business with more than 14 years of technical hands-on experience.

They started their journey in 2008 working with groups of small organic growers in the north of Peru. In 2019, they decided to establish their own agroexport company to get more control over quality, reliability and sustainability.

From the beginning, the company mission was the development of their growers, team and clients, with a special focus in establishing strong and trustworthy business relationships all the way into the supply chain (bottom to top).

Quality assurance, flexibility & customer service are key in the company.

AgroAndino is the pioneer in growing organically certified physalis (Golden berries) and the largest exporter of this fruit in Peru. Their goldenberry, whose seeds come from a wild plant, is their own selected “San Pablo” variety with a very attractive sweet and sour taste. AgroAndino was founded in 2006 to achieve fair rural economic development in the northern Andes of Peru, strengthen small farmer organizations and provide formal work for employees. Building capacity for their small farmers is their goal for sustainable organic and regenerative agriculture.

Long-term cooperation with their growers enables trusting cooperation and planning of production. Their physalis are available all year round. They offer the fruits peeled and unpeeled (unpeeled in boxes of 3.2 kg or baskets of 100 g, in boxes of 0.80 or 1.2 kg; peeled in clamshells, filled with 150 g, in boxes of 3 kg).

Their GLOBALG.A.P. and BRC certifications support the traceability and quality of their products.

Agronegocios Pina is a family farm with more than 70 years experience in the fruit business, cultivating their own mango and avocado plantations close to the town of Moro, Peru. Agronegocios Pina has now decided to expand the business seeking strategic allies to supply their high-quality fruit directly from farm to customers in international markets.

To meet the nutritional and water requirements of avocado plants and at the same time preserve local natural resources, they have technified the irrigation systems and build their own organic lab of fertilizers made with in-house raw materials. The climate of the valley, allowed them to develop, over time, a unique pruning process

for mango, postponing the harvest until April, being the last to harvest in the Peruvian mango campaign. Furthermore, Agronegocios Pina maintains a close relationship with the surrounding community and provides income opportunities for local families.

Molodizna Agrarna Spilka (Oh my Garden)

Molodizna Agrarna Spilka (Oh My Garden!) is a modern Ukrainian company that grows delicious apples. Its orchard has been founded in 2015 and nowadays it has more than 48 hectares with ambitious expansion plans.

In Ukraine, they are located in an ecologically clean area of Bukovina. Between the cities of Vynnytsa and Chernivtsy, near the mighty river Dnister.

They grow Gala, Golden and Red Jonaprince. It is Oh My Garden's decision to excel at something small. Being certified and carefully selecting bio approved nutrients ensures healthy and delicious apples for your customers.

Volynska Yahidka LLC, under the brand name Volberry, was founded in 2016 in the Western part of Ukraine – only 8 km from the Polish border. The company is now one of the largest growers of cultivated blueberries (highbush) in Ukraine. The planting site of 231 hectares is located on the acidic peat soils of the ecologically clean area of Shatsky district of the Volyn region in Ukraine. Volberry produces the following varieties of berries: Duke, Bluegold, Elliot, Nelson, Toro and Rieca.

The company has their own in-house cooling, sorting and packaging and can offer packaging of 125 g, 250 g, 500 g and 3 kg. Currently, Volberry is supplying a couple of supermarket chains in Ukraine – like ATB and Silpo and is now looking to establish sustainable partnerships with buyers in Europe.

Products & quantities per year

- Blueberries (Duke) / 140 t
- Blueberries (Bluegold) / 200 t
- Blueberries (Nelson) / 60 t
- Blueberries (Eliot) / 200 t
- Blueberries (Toro) / 200 t
- Blueberries (Rieca) / 100 t

Certifications

- GLOBALG.A.P.
- GRASP

Growing region

- Shatski district,
Volyn region
