Import Promotion Desk (IPD)

Connecting Sustainability and Innovation: Unique Tourism Products for the European Market

The majority of travellers from Germany and Europe express the desire to travel in a way that is not only environmentally friendly, but also in tune with the cultural essence of the host country. To meet these customer expectations, European tour operators need reliable local partners.

Import Promotion Desk (IPD), the German initiative for sustainable tourism promotion, supports you in this. We connect you with carefully selected tourism companies from developing countries. Our services are neutral, quality-conscious and free of charge.

Sri Lanka is the latest partner destination in the IPD portfolio. Together with the destinations Ecuador, Nepal, Tunisia and Uzbekistan IPD can offer a variety of innovative products from niche to full DMC services.

At ITB Berlin 2024 we will be presenting 36 partner companies introducing their unique products to the European market. For the first time, we will also be presenting five companies from Malawi that are supported by GIZ.

On the following pages you will find detailed information about the recommended tourism businesses.

All IPD companies are thoroughly evaluated and have been trained on the requirements of the European travel market. Our partners' travel offers are customised for the European market, distinct from mass tourism, and sustainable in their philosophy.

Visit us at ITB Berlin and check out the innovative tourism products for yourself!

IPD is an initiative of the Federation of German Wholesale, Foreign Trade and Services (BGA) and sequa, the development organisation and partner of German business. We are funded by the Federal Ministry for Economic Cooperation and Development (BMZ).

In line with our development policy objective, we aim to integrate small and medium-sized enterprises from developing countries into international supply chains, promote innovation and higher value creation in order to contribute towards sustainable economic development in partner countries.
